

Waterton Biosphere Reserve Association invites you to join us for a Carnivores and Communities Meeting

Come learn the latest news about carnivores in southwestern Alberta, and tools you can use to help reduce the risk of conflict with carnivores on your land.

Featured presentations:

Annie Loosen will present the final results from the Southwest Alberta Black Bear Monitoring Project, including information on black bear population size and interactions with grizzly bears.

Cat Urbigit, a Wyoming rancher and writer knowledgeable in the use of livestock guardian dogs, will share her expertise in the use of dogs to protect livestock from carnivore depredation.
